

Rectifier station KS

Technical specifications of rectifier stations

1. Supply voltage AC (160...250)V, (47...63)Hz.
2. Maximum output voltage 48V.
3. Maximum output power (1...800) W.
4. Efficiency 80%.
5. Operating temperature range -40 ... +50°C.
6. Relative humidity 98%(25°C).
7. Accuracy of protecting potential measurements and regulation limits (0...3000)mV.
8. Accuracy of protecting potential measurements 1%.
9. Accuracy of protecting current measurements 1,5%.
10. Accuracy of protecting voltage measurements 1,5%.
11. Dimensions of rectifier station 700 x 500 x 270 mm.
12. Weight of rectifier station 25kg.
