

## GAS DETECTOR US-05

### Product characteristics

The portable gasification alarm US-05 is intended for the detection of gas leaks in gas pipelines, household premises, dangerous goods warehouses, boiler rooms and other premises.

The flexible metal gooseneck minimizes distractions and allows you to reach hard-to-reach areas.

Sensor type - catalytic

Display of data on the OLED screen

Gas detection	Methane, propane, lpg, hydrogen, acetone and others flammable gases
Gas measurement range	0-50 %LEL
Resolution	1 %LEL
Measurement accuracy	±3 % RH
Response speed	5 sec.
Alarm type	sound, LEDs
Preparation for work	60sec.
Operating current	190mA
Work environment	0-50 °C 0-70 % RH
Storage environment	10_50 °C, 5-95 % RH
Gooseneck	200 mm
Battery	3,7V 2200 mAh
Battery charging	5V/2A USB-C
Product dimensions	165x80x30 mm
Product body	ABS
